VETERIS TESTAMENTI GRAECI

IN SERMONEM SYRIACUM VERSI

FRAGMENTA OCTO

De codicibus ad fragmenta veteris testamenti de graeco syriaca edenda a me adhibitis rettulerunt Wilhelmus Wright et Hermanus Zotenberg.

primus est musei britannici Additional 14442 = 48 Wrightii:

The book of Genesis, translated from the Septuagint by Paul, bishop of Tellā or Constantina.

Vellum, about 8³/₄ in. by 5³/₈, consisting of 46 leaves, many of which are much stained and torn, especially foll. 3—6, 9, 10, 17—21, 35, and 46. The quires, signed with letters, were originally 13 in number, but several are now lost, and only ܝ, ܒ, and ܚ, are complete. Leaves are wanting after foll. 2, 6, 8, 18, 19, 20, 21, 33, and 45. Each page has from 22 to 28 lines. This manuscript is written in a good, regular Esṭrangẹlā of the vii^th cent.

secundus musei britannici Additional 12134 = 49 Wrightii:

The book of Exodus, ܡܦܩܢܐ. ܒ., translated from the Septuagint by Paul of Tellā.

Vellum, about 10¹/₄ in. by 6³/₄, consisting of 134 leaves, one of which (fol. 6) is much torn. The quires, 14 in number, are signed with letters, but the first is imperfect, leaves being missing after foll. 1, 5, and 6. The number of lines in each page varies from 20 to 22. The writing is a fine, regular Esṭrangẹlā. This manuscript is dated A. Gr. 1008, A. D. 697.

librario Lazaro nomen erat

tertius musei britannici Additional 14437 = 50 Wrightii:

The book of Numbers, translated from the Septuagint by Paul of Tellā.

Vellum, about 10¹/₈ in. by 6⁵/₈, consisting of 46 leaves, several of which are much stained and torn, especially foll. 7, 8, 38, and 39. The writing has been purposely effaced on foll. 45 *a* and *b*, and 46 *b*. The quires, now eight in number, are signed with letters, but only ܗ, ܙ and ܫ are complete. Leaves are wanting both at the beginning and end, as well as after foll. 2, 4, 6, 7, 21, and 23. The number of lines in each page varies from 24 to 29. This manuscript is written in a fine, regular Esṭrangẹlā, of the viii^th cent.

quartus musei britannici Additional 12133 = 51 Wrightii:

The book of Joshua . . . ., translated from the Septuagint by Paul of Tellā.

Vellum, about 9⁷/₈ in. by 6⁵/₈, consisting of 61 leaves . . . ., some of which are slightly stained and the last is much torn. The quires, signed with letters, were originally eight in number, but the signatures now run from ܚ to ܝܚ. Leaves are wanting at the beginning, and after foll. 112, 113, 119, 120, and 128. There are 25 or 26 lines in each page. The writing is a fine, regular Esṭrangẹlā of the viii^th cent.

quintus musei britannici Additional 17103 = 52 Wrightii:

The books of Judges and Ruth, translated from the Septuagint version by Paul of Tellā. Vellum, about 10¹/₄ in. by 6³/₄, consisting of 70 leaves, a few of which are a little stained, and one (fol. 68) slightly torn. The quires, seven in number (the last of 15 leaves), are signed with letters. A couple of leaves are wanting at the beginning,

and one after fol. 5. There are from 23 to 26 lines in each page. This manuscript is written in a fine, regular Esṭrangelā of the viii[th] cent.

sextus musei britannici Additional 14437 = 53 Wrightii:

The third book of Kings, translated from the Septuagint by Paul of Tellā.

Vellum, about 10¹/₈ in. by 6¹/₂, consisting of 78 leaves . . . ., of which the last six are more or less stained and torn. The quires, signed with letters, were originally nine in number, but ܛ is now lost. There are from 21 to 28 lines in each page. The writing is a fine, regular Esṭrangelā of the viii[th] cent.

septimus bibliothecae parisiensis ancien fonds 5 = 27 Zotenbergii:

Le quatrième livre des Rois, traduit sur le texte grec hexaplaire par Paul, évêque de Téla. Entre les feuillets actuellement cotés 86 et 87, il manque un feuillet (4[e] livre des Rois, chap. xxv, vers 20 à 29).

Edita erat eorum quae in hoc voluminis mei tomo repeto pars non exigua ab Henrico Middeldorpfio, Thoma Skat Rördam, Antonio Ceriani. nam HMiddeldorpfius anno 1835 in codice syriaco-hexaplari publici iuris fecerat librum Regnorum quartum, exemplo usus ab Iacobo Bruns descripto: ThSkat Rördam annis 1859 et 1861 libros Iudicum et Ruth cum viris doctis communicaverat: ACeriani annis 1863—1868 in monumentorum sacrorum et profanorum volumine secundo Genesis quae manserunt omnia et Exodi quae 33 ₂ verba καὶ Εὐαῖον praecedunt, protulerat.

ad hos accessi anno 1880 ego, quae post Exodi 33 ₂ Γεργεσαῖον sequuntur, Numerorumque et Iosue et tertii Regnorum libri lacinias superstites omnes primus edens, Cerianea et Middeldorpfiana ad codicum anno 1879 a me collatorum fidem repetens. in quo negotio perficiendo litteris hebraicis utendum erat: quod me invitissimum fecisse non est quod dicam.

tertium contuli quae anno 1879 Londinii descripseram et primum atque alterum contuleram, anno 1890: ad quartum Regnorum librum reverti non potui, mense Augusto anni 1879 a me Parisiis excussum.

ad libri Iosue versionem edendam adhibui quae anno 1574 ex officinâ Christophori Plantini vir laude meâ maior, Andreas Masius, in Iosuae imperatoris historiâ illustratâ atque explicatâ e codice suo syriaco delibaverat. quem codicem si reciperare possemus, gemellum ni fallor fratrem haberemus Ambrosiani illius celeberrimi ab Antonio Ceriani solis ope editi.

Capitum σύνοψιν huic versioni insertam eam esse quae anno 1724 in Chrysostomi editione 6 314—391 non integram typis exscripserat Bernhardus de Montfaucon, primus ACeriani anno 1863 vidit: post Cerianium viderunt Wilhelmus Wright et Hermanus Zotenberg. de quâ quum in libro meo Septuagintastudien uberius egerim, hoc loco tacendum mihi esse intellego.

Erat quum synopsi graecâ ita uti me posse confiderem, ut verba syriaca iniuriâ temporis evanida reciperarem. sed res male cessit: nam haut raro incertus haerebam, quodnam vocabulum syriacum indoli orationis graecae aptum esset. consultius igitur visum est, locis eis quibus syriaca male servata sunt, graeca in eorum beneficium integra adponere qui me syriace doctiores damno mederi volent. syriaca ita edidi ut singularum paginarum versus quam adcuratissime imitarer. quod eo consilio feci, ut ad normam certam sua exigere possent qui ad lacunas sarciendas animum adplicare audebunt. versuum interdum non eundem in utrâque folii parte numerum haberi videbunt qui his meis utentur: quâ re ut caute agant, monebuntur.

En capita ipsa, quot quidem aetatem apud Syros tulerunt.

ᾤοντο γὰρ ἐκλελοιπέναι τὸ τῶν ἀνθρώπων γένος.

Παρῴκησεν ἐν Γεράροις ὁ Ἀβραάμ, καὶ ὁ βασιλεὺς Γεράρων Ἀβιμέλεχ ἔλαβε τὴν Σάρραν. ἀπειλήσαντος δὲ αὐτῷ τοῦ θεοῦ, ἀπολογεῖται λέγων ἀδελφὴν αὐτοῦ νενομικέναι εἶναι τὴν γυναῖκα· οὕτω γὰρ αὐτὴν εἶπεν. ἀπέδωκε δὲ αὐτὴν τῷ Ἀβραὰμ μετὰ δώρων. τότε ἀποδοθεῖσα τίκτει τὸν Ἰσαάκ, ἐκβάλλει δὲ τὴν παιδίσκην μετὰ τοῦ παιδὸς Ἰσμαήλ. ὁ δὲ Ἀβιμέλεχ ἐκτίθεται πρὸς τὸν Ἀβραὰμ ὥστε μὴ ἀδικεῖν ἀλλήλους. καὶ λαμβάνει ἑπτὰ ἀμνάδας παρὰ τοῦ Ἀβραὰμ εἰς μαρτυρίαν τοῦ ὁρκισμοῦ, ἵνα ᾖ δῆλον ὅτι τοῦ Ἀβραάμ ἐστι.

Κελεύεται ἀνενέγκαι τὸν υἱὸν εἰς ὁλοκάρπωσιν, καὶ ἀναφέρει, καὶ σφαγιάζεται κριὸς ἀντ' αὐτοῦ. ταῦτα δὲ τύπος ἦσαν τῆς μελλούσης οἰκονομίας ὑπὸ τοῦ Χριστοῦ τελεῖσθαι ὑπὲρ ἡμῶν. ἀποθνήσκει Σάρρα, καὶ ἀγοράσας τόπον ὁ Ἀβραὰμ παρὰ Ἐφρὼν τοῦ Χετταίου, θάπτει ἐκεῖ τὴν γυναῖκα. καὶ πέμπει τὸν παῖδα αὐτοῦ ὥστε μνηστεύσασθαι τῷ Ἰσαὰκ γυναῖκα ἀπὸ Μεσοποταμίας, παραγγείλας μὴ ἀποστρέψαι τὸν υἱὸν αὐτοῦ ἐκεῖ, εἰ μὴ βούλοιτο ἐλθεῖν ἡ γυνή. ὡς δὲ ἦλθεν ὁ παῖς εἰς τὴν πόλιν Ναχώρ, καὶ τὸ σημεῖον ᾔτησε καθ' ὃ

1 Ierem μγ, 30 — 6 [illegible] codex — 10 adscr manu primâ μαρωδαχευλαδ
2 Ierem 22, 19

Nach P. de Lagardes Anordnung folgt hier eine Liste alles desjenigen, was Andreas Masius in seinem Peculium Syrorum und in seinen in der Amsterdamer Ausgabe der Critici Sacri abgedruckten Bemerkungen zum Deuteronomium und zu Iosue aus seiner syrischen Handschrift in syrischer Sprache mitgeteilt hat.

Das Peculium (in der Liste mit P bezeichnet) ist, wie fast alle Stücke der beiden Bände der Antwerpener Polyglotte, welche die Grammatiken und Lexika und die Tractate enthalten, in zwei Drucken vorhanden. Ueber den doppelten Druck dieser beiden Bände gibt Max Rooses in seinem »Christophe Plantin« (vgl. Lagarde, Novae psalterii graeci editionis specimen 2[r]) S. 123 f. Auskunft. Da das kostbare Werk kaum allgemein zugänglich sein wird, setze ich die Stelle her:

> Au mois d'août 1572, il [Christophe Plantin] écrivit à Arias Montanus qu'il ferait disparaître, dans la seconde édition de l'*Apparatus*, tout ce que le docteur avait signalé et signalerait encore, et, au commencement du mois suivant, il lui fit savoir qu'au reçu de ses lettres, il avait immédiatement distribué aux compositeurs le dictionnaire syro-chaldéen, après en avoir éliminé les mots suspects, afin d'en faire une édition nouvelle qui pût se vendre dans les Pays-Bas et en Espagne. Dans une lettre à Çayas du 4 novembre 1572, il dit que, s'étant trouvé à court d'argent, il avait imprimé de l'*Apparatus sacer*, c'est-à-dire des trois derniers volumes de la Bible, 600 exemplaires seulement et qu'il imprimerait les 613 autres quand il en trouverait le moyen. Il commença cette réimpression immédiatement après l'achèvement de la Bible, et, au moment où il annonçait à Çayas son intention de l'exécuter, il l'avait déjà entreprise.
>
> Le compositeur Arnold Fabri commença à y travailler le 2 août 1572, et y besogna jusqu'au 8 août de l'année suivante, achevant successivement l'*Index biblicus*, le *Dictionarium Syro-Chaldaicum*, *Jeremias*, *Joseph* et d'autres parties non spécifiées. Du 28 juillet 1572 au 8 août 1573, Hans Han besogna au dictionnaire hébreu et aux petits traités du dernier volume. Du 23 février jusqu'au 8 août, Nicolas Amen composa le dictionnaire grec. Du 20 décembre 1572 au 21 mars suivant, Joost De Meersman l'assista. Un nouvel ouvrier, Nicolas Sterck, imprima pour ces différents compositeurs jusqu'au 11 décembre 1572. A partir de cette date, Joris Van Spangenberg continua le tirage. Du 24 avril au 2 mai 1573, il imprima la préface nouvelle; le 14 août suivant, il termina sa tâche par les dictionnaires. Cette dernière date est donc celle de l'achèvement définitif de la seconde édition de l'*Apparatus*, et de l'ensemble des travaux de la Bible royale.

En comparant les trois exemplaires de cet ouvrage que le Musée Plantin-Moretus possède, nous remarquons que le premier volume de l'*Apparatus*[1]) est dans tous de la même édition, et comme, dans le compte des ouvriers, il n'est pas question de la réimpression de la Bible de Pagnino, nous sommes autorisés à dire que, dès le principe, ce volume fut tiré à 1213 exemplaires. Le second volume, dans les trois exemplaires, est de deux éditions différentes, à l'exception de la grammaire hébraïque qui est identique dans tous. Le troisième volume est également de deux éditions différentes, à l'exception des traités: *Chanaan*, *Index Biblicus*, *Hebraea*, *Chaldaea*, *Graeca et Latina nomina*, *Variae lectiones in Chaldaicam paraphrasim*, *In tabulam titulorum Novi Testamenti Syriaci* et *Variae lectiones in Latinis Bibliis*. La préface générale est en partie identique, en partie de l'une et de l'autre édition. On peut, d'après cela, présumer que certains traités du dernier volume ne durent pas être réimprimés.

Beide Drucke des Peculium bestehn aus 1 Seite Titel + 1 Seite Vorwort + 52 Seiten Text; im ersten Drucke folgt dann noch eine Seite »Addenda et emendanda«, welche im zweiten Drucke wegfällt, da die Nachträge und Verbesserungen in den Text selbst eingefügt sind. Der erste Druck trägt die Jahreszahl M.D.LXXI, der zweite M.D.LXXII. Im Uebrigen stimmen die beiden Titel überein bis auf die Typen, welche im zweiten Druck nur zum Teil dieselben sind, wie im ersten, und das Druckerwappen. Ein »Editio altera« oder dergleicheu ist auf dem Titel des zweiten Drucks nicht vermerkt.

Ich habe meine Liste ausgearbeitet nach einem in meinem Besitz befindlichen Exemplar des zweiten Druckes, und habe sie nachher, als ich das Vorhandensein zweier Drucke entdeckt hatte, mit dem in der Göttinger Universitätsbibliothek befindlichen Exemplar des ersten Drucks[2]) collationiert. Wesentliche Unterschiede beider habe ich nicht gefunden[3]). Beide sind mit einer der Plantinschen Firma und den Correctoren der Biblia regia Ehre machenden Correctheit gedruckt. Unangenehm ist das Vorhandensein zweier Drucke nur deshalb, weil die genauen Citate mit Angabe der Columne, welche ich glaubte geben zu müssen, da Masius in der Anordnung der abgeleiteten Formen kein festes Princip hat, nun nur für den zweiten Druck passen. Denn da die Seiten 3—24 des zweiten Drucks je eine Zeile mehr enthalten, als die entsprechenden des ersten, und der zweite Druck im Anfang hier und da etwas compresser ist, als der erste, so ist jener hinter diesem schon bei Seite 14 um eine volle Columne zurückgeblieben: Col. 14^1 des zweiten ist = Col. 14^2 des ersten Drucks; nachher steigt der Unterschied noch etwas, nimmt dann aber wieder langsam ab, ohne jedoch ganz zu verschwinden. Ich habe mir daher überlegt, ob ich nicht alle Citate umschreiben und dem ersten Drucke anpassen solle; da aber die zweite Ausgabe eine editio emendata ist und nach Rooses' oben angeführter Mitteilung in mindestens ebenso vielen Exemplaren verbreitet sein muß, wie die erste, habe ich es unterlassen. Will man meine Angaben nach dem ersten Druck controllieren, so wird man in der Mehrzahl der Fälle Eine, zuweilen sogar zwei Columnen weiter gehn müssen, als ich angegeben habe.

Andreas Masius citiert durchgehends nur die Kapitel, nur in ganz vereinzelten Fällen auch die Verse, in welchen die von ihm angeführten Wörter vorkommen. Hierdurch ist, da es sich

1) Als erster Band des Apparatus, also als sechster des ganzen Werkes, wird hier die Interlinearversion der Bibel (»la Bible de Pagnino«) gerechnet, welche sonst als siebenter oder auch als achter Band des Ganzen aufgeführt wird.

2) Im sechsten Bande des Göttinger Exemplars der Biblia regia. Der achte Band des Göttinger Exemplars, welcher aus verschiedenen Stücken des »Apparatus« zusammengesetzt ist und ursprünglich nicht zu diesem Exemplare gehörte, enthält unter anderem auch den zweiten Druck des Peculium.

3) Der größte Unterschied, der mir aufgestoßen ist, betrifft die Reihenfolge der Artikel von ܡܗܦܟ bis ܡܪܝ. Im ersten Druck ist sie so: 1 ܡܗܦܟ 2 ܡܚܡ 3 ܡܚܡܪ 4 ܡܠܐ 5 ܡܠܟ 6 ܡܪܐ 7 ܡܪܝ, im zweiten so: (1) ܡܗܦܟ (3) ܡܚܡܪ (5) ܡܠܟ (6) ܡܪܐ (2) ܡܚܡ (4) ܡܠܐ (7) ܡܪܝ. Durch die Umstellungen, deren eine übrigens schon in den Emendanda des ersten Drucks angeordnet war, ist die richtige alphabetische Reihenfolge der Artikel erzielt. ܡܚܡܪ des zweiten Drucks ist ein Druckfehler für das in den Emendanda an die Stelle von ܡܚܡܪ gesetzte ܡܚܡܪ.

fast überall nur um einzelne Wörter handelt, die Herstellung der Liste sehr erschwert worden. Glücklicherweise aber gibt Masius meistens die griechischen Wörter an, denen die syrischen entsprechen. So konnte die Concordanz zur Septuaginta[1]) helfen, die freilich, obgleich sie nach der 1597 in Frankfurt bei Wechels Erben erschienenen Ausgabe gearbeitet ist, also wesentlich denselben Text zur Grundlage hat, den Masius zu citieren pflegt, doch sehr oft im Stiche ließ. Von Nutzen war mir auch der Thesaurus syriacus von PSmith durch die in ihn aufgenommenen, von FField stammenden Listen über die »Hex.«-Uebersetzungen griechischer Wörter und durch die, wohl auch von Field stammenden Citate aus Masius' Peculium, in welchen die Verse fast immer richtig nachgewiesen sind[2]).

Ich habe die Citate nach der Reihenfolge der biblischen Bücher geordnet. Wenn ein griechisches Wort in dem citierten Kapitel zweimal oder öfter vorkommt, habe ich alle Verse, in denen es sich findet, angegeben, aber das Citat zu dem Verse gestellt, in welchem das griechische Wort zuerst vorkommt. Ob das griechische Wort in solchen Fällen überall durch das betreffende syrische Wort wiedergegeben war, oder nur an Einer oder einigen Stellen, muß dahingestellt bleiben.

Da wir es mit einer Uebersetzung aus dem Griechischen zu thun haben, habe ich — mit Ausnahme einiger Stellen, an denen es geraten schien den hebräischen Text zu citieren — durchgehends die griechischen Wörter vorangestellt und ihnen die syrischen folgen lassen. Wo Masius das griechische Wort angibt, habe ich es in der Form belassen, in welcher er es anführt, mag diese Form der syrischen genau entsprechen oder nicht; wo Masius eine falsche griechische Form bildet, wie παρενωχλεῖν P 5[1], habe ich sie, meist stillschweigend, verbessert; wo er das griechische Wort nicht anführt, habe ich in eckigen Klammern das Wort des griechischen Textes angegeben, zu welchem das syrische gehört. Dagegen habe ich da, wo es sich um Uebersetzungen des Aquila, Symmachus oder Theodotion handelt, stets den hebräischen Text citiert.

Masius bildet öfter falsche syrische Formen, z. B. das »Hiphil« ܐܘܩܪܐ P 3[3] statt ܐܘܩܪ, das »Piel« ܝܩܪܐ P 32[2] statt ܝܩܪ (vgl. seine Grammatik 38 39). Solche Formen habe ich stillschweigend corrigiert. Unverändert angeführt sind dagegen die falsch gebildeten Singularformen, aus denen sich die Pluralformen, welche Masius las, erschließen lassen.

Die in die Amsterdamer Ausgabe der Critici Sacri aufgenommenen Anmerkungen des Masius zu Deuteronomium 17—34 stehn im zweiten Teile des ersten Bandes, die »Additamenta nova ex MS.« zu Iosue im zweiten Bande. Da sie leicht zu finden sind, habe ich mir genaue Citate, die sehr weitläufig ausgefallen sein würden, geschenkt und citiere blos CS.

Die in CS angeführten syrischen Wörter wimmeln von Druckfehlern, die sich jedoch mit Hülfe der meistens daneben gegebenen lateinischen Uebersetzung leicht und sicher verbessern lassen, und meist stillschweigend verbessert sind. Für den syrischen Druck sind in CS — mit Ausnahme der am Ende des Deuteronomiums citierten Bemerkung über einen Zusatz des Samaritaners zum Dekalog — unpunktierte hebräische Buchstaben verwendet. Die in meiner Liste stehenden Punkte und Vokale sind von mir hinzugefügt: die lateinische Uebersetzung diente auch hier als Führerin.

Die in CS mitgeteilten Citate aus Masius' syrischer Handschrift sind natürlich mit den im Peculium mitgeteilten in Eine Liste eingereiht. Ein Zweifel darüber, welchen griechischen Worten die angeführten syrischen entsprechen, konnte bei ihnen nicht statt haben, da die Anmerkungen von Vers zu Vers vorwärts schreiten. Ich habe daher die griechischen Worte, auch wenn sie Masius nicht ausdrücklich anführt, uneingeklammert vorangestellt.

In die Liste, welche jetzt folgen möge, sind folgende fünf Citate nicht aufgenommen, da ich sie nicht zu identificieren vermochte:

Deuter 22 ܦܬܐ, ܦܬܝ oder ܦܬܬܐ *persuasit, induxit blanditiis* P 19[3]
Iudic 3 ܐܫܬܡܫ *uti* P 19[2]
Iudic 6 ܚܡܣ ἁρμόζεσθαι P 25[1]
Esther 8 ܡܫܬܕܠܢܘܬܐ ἐπιτήδευμα P 51[1]
Iudith 6 ܙܒܠܐ *fimus*, *stercus* P 46[1].

1) Natürlich die von Trommius. Die neue Oxforder Concordanz konnte ich noch nicht benutzen.

2) Freilich fehlen die am schwersten zu identificierenden Citate des Masius im Thesaurus syriacus durchweg.

Deuteronomium

15₇ συσφίγγειν ܣܪܘܓ oder ܐܣܪܘ P 18³

15₉ πρόσεχε σεαυτῷ ܚܘܪ ܐܢܬ ܒܟ P 18³

Masius' Handschrift enthielt, wie er in der Widmung seines Iosue 6 angibt, außer Iosue Iudicum historias et Regum: praeterea Paralipomena, Ezdram, Esther, Iudith: denique Tobiae, et Deuteronomii bonam partem.

Vorstehende Liste zeigt, daß er alle diese Bücher systematisch excerpiert hat mit Ausnahme der Paralipomena und des Ezdras.

In der Widmung seiner Uebersetzung von Bar-Cepha's Buch über das Paradies teilt Masius mit, daß die in seinem Besitz befindliche syrische Uebersetzung der Bücher der Regna am Rande hier und da Scholien habe, »brevissima quidem illa, sed peracuta plerumque et docta, quae Divi Severi Patriarchae titulum prae se ubique ferunt«[1]). Auch diese, die sich gleichfalls in den von Lagarde herausgegebenen Handschriften von Regn γ und δ finden, hat er für seine Sammlungen excerpiert: Regn γ 9_8 21_{19} δ 9_{11}. Bei anderen Büchern erwähnt Masius solche Scholien nicht: auch die Londoner Handschriften von Iosue und Iudices haben keine Scholien.

Masius' Handschrift enthielt außer den eilf vollständigen zwei unvollständige Bücher. Diese, Deuteronomium und Tobias, müssen den Anfang und Schluß gebildet haben. Dazu stimmt, daß vom Deuteronomium der Anfang, von Tobias der Schluß fehlt. Das erste Citat stammt aus Deut 15_7, das letzte aus Tob 7_8. Daß durch diese Citate zugleich Anfang und Ende der Handschrift ziemlich genau bestimmt sind, ergibt sich mir aus folgenden Erwägungen.

Andreas Masius gibt zuweilen die Kapitel, welchen seine Citate entstammen, falsch an; so citiert er statt »Iudith 12« stets »Iudith 11«, statt »1. Reg. 4« stets »1. Reg. 1«. Solche Fehler lassen sich, soweit sie nicht einfache Schreib- oder Druckfehler sind, am leichtesten durch die Annahme erklären, daß Masius seiner Handschrift, um ihre Benutzung zu erleichtern, die Kapitelzahlen beigeschrieben hatte und dabei nicht immer ganz genau gewesen war, später aber, als er seine Excerpte machte, sich ganz auf jene Beischriften verließ und durch sie zuweilen zu falschen Angaben veranlaßt wurde. Insbesondere der zweite der beiden angeführten Fehler erklärt sich so sehr einfach: in der Handschrift war hier ein Blatt ausgefallen, welches den Schluß des ersten Kapitels, das zweite und dritte Kapitel, und den Anfang des vierten enthielt; Masius hatte den Beginn von Kap. 1 und 5 richtig notiert, aber versäumt zu bemerken, daß ein Blatt fehle und das neue Blatt mit dem so- und so-vielten Verse des vierten Kapitels beginne, und so kam er dazu, das auf dem neuen Blatte zuerst Stehende als auch noch aus Kap. 1 stammend zu citieren. Die Annahme, daß Masius so mit seiner Handschrift verfahren ist, ist ja auch an sich sehr wahrscheinlich: ich erinnere, um nur Ein Beispiel anzuführen, an die Beischriften, mit welchen Antonius Giggeius (Ceriani, Monumenta 7 1^1 Pescitto 1 8^1) die beiden von Ceriani in Photolithographie herausgegebenen Mailänder Handschriften verziert hat. — Nun gibt Masius, während er sonst im Tobias überall richtig citiert, für das letzte Citat fälschlich »Tob. 6« statt »Tob. 7« an. Daraus folgt mir, daß von dem siebenten Kapitel nur noch ein Teil in seiner Handschrift stand, und er dadurch, als er seine Beischrift zum Anfang von Kap. 6 gemacht hatte, zu der Annahme verführt wurde, der Rest der Handschrift gehöre dem sechsten Kapitel an, und keine weitere Beischrift machte.

Folgt mir hier beim Schlusse aus dem Fehler im Citieren, daß das letzte Citat ungefähr mit dem Ende der Handschrift zusammenfällt, so folgt mir beim Anfange dasselbe aus der Genauigkeit des ersten Citats. Masius gibt für ܣܪܐ oder ܣܪܙ συσφίγγειν ganz gegen seine Gewohnheit auch den Vers an: »Deuter. 15. vers. 7«, während er dies gleich bei den folgenden Citaten nicht mehr thut. Daraus schließe ich, daß »Deuter. 15. vers. 7« in der Handschrift selbst, um ihren Anfang zu bezeichnen, vermerkt stand. Sollte aber auch dieser Schluß falsch sein, so kann doch der Text keinesfalls weit vor Deut 15_7 begonnen haben. Da die ersten Citate dicht auf einander folgen ($15_{7\ 9\ 11\ 13}$), so würde die Annahme allen Gesetzen der Wahrscheinlichkeit widersprechen, daß noch ein größeres Stück vorhergegangen sei, das Masius ganz unexcerpiert gelassen hätte.

1) Die Stelle, welche ganz nachgelesen zu werden verdient, steht in dem mir allein vorliegenden Abdrucke im zweiten Teile des ersten Bandes der Amsterdamer Critici Sacri 391 392_{34-42}.

Masius' Handschrift enthielt also

Deuteronomium von 15_7 (eventuell von einem der vorhergehenden Verse) an
Iosue
Iudices (wahrscheinlich ohne das Buch Ruth, das Masius weder nennt, noch citiert)
Regnorum α—δ (mit Scholien des Severus: zu α—δ, oder nur zu γ und δ?)
Paralipomenon α und β
Ezdras
Esther
Iudith
Tobias bis 7_8 oder etwas weiter (genauer, wie sich unten zeigen wird, bis 7_{11}),

wahrscheinlich in dieser Reihenfolge. Sie war am Anfange und Schlusse defekt. Ursprünglich hat sie jedenfalls mit der Genesis begonnen und mindestens bis zum Schlusse von Tobias gereicht.

Da sie mit der Mailänder hexaplarischen Handschrift zusammen gerade ein ganzes Altes Testament ausmacht, so ist seit Björnståhl (bei PJBruns in Eichhorns Repertorium 3 167 170/171) öfter vermutet worden, daß sie ursprünglich mit jener zusammengehört habe. Diese Vermutung glaube ich, soweit das in diesem Falle überhaupt möglich ist, zur Gewißheit erheben zu können.

In Masius' Handschrift fehlte Deut 26_9 ταύτην—28_{29} ἡμέρας καὶ οὐκ. Da dieser Defekt sich nicht weit vom Anfange der Handschrift fand, so ist anzunehmen, daß das Fehlende den Schluß der ersten erhaltenen Lage gebildet hatte, und daß sein Verlust durch den Verlust des Anfanges dieser Lage veranlaßt war. Das Fehlende nimmt im griechischen Texte bei Tischendorf $120^1/_2$ Zeilen, bei Eß 5 Columnen —2 Zeilen ein, das vorher Erhaltene (von Deut 15_7 an gerechnet) bei Tischendorf $492^1/_2$ Zeilen, bei Eß 20 Columnen + 11 Zeilen; daraus folgt, daß sich jenes zu diesem wie 1 : 4 verhielt. Nun spricht Masius von »aliquot paginae omissae«, aber ich bezweifle, daß mehr als Ein Blatt gefehlt hat. Denn wenn auch nur zwei Blätter gefehlt hätten, so hätte die Lage schon aus 12 Blättern (8 erhaltenen, 2 vorn und 2 hinten verlorenen) bestehn müssen; ein Blick in Wrights Katalog syrischer Handschriften lehrt aber, daß zwar zehnblättrige Lagen allgemein üblich waren, stärkere Lagen jedoch, zumal in alten Handschriften, nur ausnahmsweise vorkommen[1]). Ein größeres Format ist übrigens bei dieser Handschrift schon um ihres großen Umfanges willen wahrscheinlicher, als ein kleineres.

Ein zweiter Defekt fand sich, wie Masius zwar nicht ausdrücklich angibt, wie aber aus seinen Citaten hervorgeht, in Regn α 1—4. Die Lücke muß hinter κατάλυμα 1_{13} begonnen und vor σκοπεύων 4_{13} geendigt haben. 1_{19}—4_{12} nimmt bei Tischendorf 160 Zeilen, bei Eß 6 Columnen + 28 Zeilen ein. Nehmen wir an, daß hinter 1_{18} und vor 4_{13} noch mehrere Verse vorhanden waren, welche Masius nur nicht excerpiert hat, so ergibt sich, daß hier ungefähr ebenso viel fehlte, wie im Deuteronomium. Wahrscheinlich war also auch hier Ein Blatt ausgefallen[2]).

Als wahrscheinlicher Normalumfang eines Blattes der Handschrift ergibt sich hieraus: ca. 120 —125 Zeilen des Tischendorf'schen, ca. 5 Columnen des Eß'schen Textes.

Vergleichen wir hiermit den Umfang der Blätter der Mailänder Handschrift. Ich habe be-

1) Eine fünfzehnblättrige Lage findet sich in der von Lagarde in dieser Bibliothek edierten Handschrift Addit. 17103 (siehe oben S. 4), aber am S c h l u s s e der Handschrift, weil man eine zu dünne Lage am Ende vermeiden wollte. — Aus der Annahme, daß in Masius' Handschrift nur Ein Blatt ausgefallen ist, folgt übrigens nicht, daß die defekte Lage ursprünglich aus nur 6 Blättern bestanden hat. Sie kann, wie die meisten Lagen alter Handschriften, aus 10 Blättern bestanden haben, von denen die ersten fünf und das letzte verloren giengen. Vgl. z. B. die eben erwähnte Handschrift Addit. 17103, in der nach Wright »a couple of leaves are wanting at the beginning, and one after fol. 5«: das »couple« wird hier, da die Lagen der Handschrift mit Ausnahme der letzten aus je 10 Blättern bestehn, = 4 sein.

2) Andere Lücken könnte man zwischen Regn β 17_{14} und 19_{24} und zwischen Regn δ 10_{24} und 14_9 vermuten, da Masius in beiden Fällen gegen seine Gewohnheit aus ca. 7 Columnen des Eß'schen Textes kein einziges Citat gibt.

liebige Blätter aus verschiedenen Teilen der Handschrift herausgegriffen, nur natürlich die stichisch geschriebenen Stücke unberücksichtigt gelassen.

Blatt	Inhalt	Umfang bei Tischendorf	Umfang bei Eß
111	Zachar 6 $_{15}$ διότι—11 $_{5}$ αὐτά	143½ Zeilen	5 Columnen + 49 Zeilen
121	Ierem 11 $_{9}$—14 $_{4}$ κεφαλήν	123½ Zeilen	5 Columnen + 4 Zeilen
165	Ezech 32 $_{2}$ θρῆνον—33 $_{30}$ ἀκούσωμεν	117½ Zeilen	5 Columnen — 10 Zeilen.
182	Isai 29 $_{22}$ οὐδέ—32 $_{14}$ σπήλαια	112½ Zeilen	5 Columnen — 18½ Zeilen.

Die Mailänder Handschrift ist nicht ganz gleichmäßig geschrieben, der Durchschnittsumfang stimmt aber genau mit dem erschlossenen Durchschnittsumfange eines Blattes der Masius'schen Handschrift überein. Daraus folgt als so gut wie gewiß, daß beide Handschriften in der That ursprünglich als zwei Bände Einer Handschrift zusammengehörten.

Müssen wir hiernach den Verlust der Handschrift des Masius um so mehr bedauern, so wird der Nachweis nicht unwillkommen sein, daß uns ein Teil von ihr, wenn auch nur in Abschrift, erhalten ist.

Es ist bekannt, daß die auf uns gekommene syrische Uebersetzung des Tobias aus zwei Stücken verschiedener Herkunft, 1 $_{1}$—7 $_{11}$ und 7 $_{11}$—14 $_{15}$, zusammengesetzt ist. Der erste Teil wird in der Ueberschrift und einer Beischrift zu 7 $_{11}$ als »Septuaginta-Uebersetzung« bezeichnet. Hieraus und aus dem Charakter der Uebersetzung hat man als wahrscheinlich gefolgert, daß 1 $_{1}$ —7 $_{11}$ der Uebersetzung Pauls von Tella angehöre: FField, Hexapla **1** lxviii[r]: ThNöldeke in den Monatsberichten der Berliner Akademie der Wissenschaften 1879, 46. Field und Nöldeke haben es sich entgehn lassen, daß schon 1869 AMCeriani in »Le edizioni e i manoscritti delle versioni siriache del Vecchio Testamento« (in den Memorie del R. Istituto Lombardo **11** 2) S. 22 gesagt hatte:

> Che la prima parte di Tobia sia l'Esaplare, lo si vede confrontando le frequenti citazioni, che ha fatte di quella parte Masio dal suo codice Esaplare e si trovano nel suo *Syrorum Peculium.*

Was Ceriani damals ausgesprochen hat, ohne die Belege anzuführen, das kann aus meiner Liste jeder auf den ersten Blick ersehen [1]).

Das letzte Citat des Masius stammt aus Tob 7 $_{8}$, und es ist oben gezeigt worden, daß die Handschrift wohl nicht viel weiter reichte. Hält man hiermit die in der Ussher'schen Handschrift (ZATW **9** 193—210) am Rande von Tob 7 $_{11}$ stehende, nicht von dem Schreiber dieser Handschrift, sondern von dem Zusammensteller unseres jetzigen Tobiastextes [2]) herstammende Notiz

ܥܕܡܐ ܠܗܪܟܐ ܡܢ ܝܘܢܝܐ ܫܒܥܝܢܐ ܐܝܬܝܗ. ܘܡܟܝܠ ܕܝܢ ܕܡܦܩܢ ܗܘܐ. ܠܐ ܐܫܟܚܢ ܗܠܝܢ.
ܕܥܒܪܗ ܡܢ ܝܘܢܝܐ ܐܢܫܐ ܐܚܪܢܐ ܕܡܦܩܢܗ....

zusammen, so wird man erkennen, wie richtig ENestle vermutet hat [3]), daß

> das Buch Tobit in dem verlorenen Codex des Masius . . . schon früh zufällig verstümmelt war, und daß alle noch vorhandenen Texte dieser syrischen Uebersetzung [von Tob 1 $_{1}$—7 $_{11}$] aus jenem Codex nach seiner Verstümmelung geflossen sind.

Auf die Bedeutung dieser Thatsache für die Geschichte des Textes der syrischen Apokryphen kann ich hier nicht eingehn. Ebenso wenig ist es möglich, über den Text der Handschrift des Masius und sein Verhältnis zu den sonst erhaltenen Resten der Uebersetzung Pauls von Tella zu sprechen, worüber sich übrigens jeder aus der mitgeteilten Liste bequem orientieren kann. Nur darauf sei noch besonders hingewiesen, daß die Handschrift des Masius offenbar manche Randnoten gehabt hat, welche den Londoner und Pariser Handschriften fehlen: Iosue 8 $_{29}$ Iudic 3 $_{15}$ 4 $_{9}$ 7 $_{5}$ 7 $_{8}$ 9 $_{28}$ Regn γ 1 $_{40}$, vgl. auch Iosue 12 $_{2}$ 22 $_{16}$ Iudic 9 $_{48}$ Regn γ 13 $_{26}$ 14 $_{15}$.

1) Für den syrischen Ezdras kann man einen solchen Beweis nicht liefern, da Masius seinen Ezdras leider nicht excerpiert hat.

2) Die vorhandenen Handschriften des syrischen Tobias haben, soweit genauer bekannt, sämtlich denselben zusammengesetzten Text, wie die Londoner Polyglotte (und Lagarde). Nöldeke MBAW 1879, 46[r].

3) Die Vermutung ist an die Oeffentlichkeit gebracht durch ThNöldeke MBAW 1879, 46[r]. Vgl. aber auch ENestle in Herzogs Real-Encyklopädie [2] **15** 200.

EVANGELIARIUM HIEROSOLYMITANUM

Anno domini 1758 in bibliothecae vaticanae codicum manuscriptorum catalogo ab se edito **1** 2_{70-103} Stephanus Euodius et Ioseph Simonius Assemani de codice vaticano syriaco ex undecimo iam undevicensimo disputaverunt, quem »evangelia eclogadia« continere docebant »iuxta ritum syriacum Graecorum Melchitarum« selecta: »lectiones evangelicas versionis et dialecti« esse »syriacae palaestinae, titulos lectionum sermone arabico, literis tamen syriacis palaestinis descriptos«: librarium testabantur die mensis ܐܒ septimo anno Alexandri 1341 scribendi finem fecisse.

Quem codicem IacGeChrAdlerus, Danorum sumptibus annis 1780 et 1781 et 1782 in Italiâ, Galliâ et apud Batavos commoratus, Romae examini adcuratissimo subiecit. quae invenerat, ea breviter et in Iohannis Davidis Michaelis libro Orientalische und exegetische Bibliothek **19** 126—131 anno 1782, et anno 1783 in kurze Uebersicht seiner biblisch-kritischen Reise nach Rom 118—127 suo nomine in publicam lucem emissâ, prolixius Hafniae 1789 in opere utilissimo cum theologis communicavit, cui titulum fecit »novi testamenti versiones syriacae simplex, philoxeniana et hierosolymitana«, ubi vide 135—202.

Ex Adleri dissertatione manaverunt quae in libris isagogicis de hac versione tradi solita sunt.

Quam a Šahwâno Maronita descriptam anno 1861 Veronae integram publici iuris fecit comes Franciscus Miniscalchi Erizzo, quem Angelus Maius anno 1848 ad edendum codicem hortatus erat.

Exposuit de Miniscalchii libro, dialectum ab interprete adhibitam descripsit, de patriâ versionis quaestionem instituit anno 1868 in ZDMG **22** 443—527 Theodorus Noeldeke.

Post Noeldekium qui praeter isagogistas de evangeliario hierosolymitano ageret, unum novi, Theodorum Zahn, cuius lege Forschungen zur Geschichte des neutestamentlichen Kanons **1** 329—350, anno 1881 editas (PdeLagarde, Mittheilungen **1** 111—120).

Inde a die quinto mensis Maii anni 1877 evangeliarium hierosolymitanum quod vocatur ita descripsi, ut ordinem evangeliorum sequerer, quum singula loca in evangeliario invenire opus taedii plenum esse expertus essem. exemplum absolvi die quinto mensis Augusti eiusdem quo inceperam anno.

Contuli apographi mei partem priorem cum ipso codice Romae mense Octobri anni 1890, eiusdem partem alteram spero fore ut mense Martio anni 1891 cum archetypo comparare possim.

Codex syriacus vaticanus undevicensimus (quem undecimum quondam numeratum esse supra rettuli, arabicum trigensimum tertium fuisse quum in bibliothecam vaticanam inferretur, in folio 196 verso notatum inveni — numerus 33 solus habetur in folio 0 verso), formae est eiusdem fere cuius Ernesti Grabe epistula ad Iohannem Millium data, quadratus. foliorum membraneorum 196, quorum quae prima posuit librarius, aut sunt rescripta aut rescripta esse videantur. nam folium primum et secundum aliquantum temporis in aquâ fluitasse mihi coram intuenti non poterat dubium esse, quamvis scripturae aquâ dilutae — et aquâ solâ ad delendam veterem scripturam uti poterant maiores nostri — ne minimum quidem vestigium cernerem. folia a tertio inde ad septimum, si 5^1 et ipsum rescriptum exceperis, in margine nunc inferiori integros versus graecos undecimo saeculo ab artifice scribendi perito exaratos nullo negotio legendos exhibent ita, ut pedes litterarum graecarum elementorum syriacorum pedibus obversi sint. folium octavum scripturam graecam eiusdem cuius folia 3—7 sunt, librarii videndam in paginâ ipsâ tantum sistit, non in margine, atque eam eodem modo conlocatam, quo suam amanuensis syriacus conlocavit. in spatio

vacuo inter columnas quae vocantur, paginarum medio leguntur vocabula graeca singula quae transscribere operae pretium esse non credebam: versus integros de quibus dixi, hos habe:

3¹ ωσ δειχνυοισ φαρισαιον τη επαρσει χαθερουμενον·
Εχ ταπεινωσεωσ γερασ. υφωποιον· εχ δε τησ επαρσε[ωσ]

3² marginis sinistri parte abscissâ
σοι τη μονη προσφυγη· πεποιθωσ μη εχπεσω.
τησ χαλησ προσδοχιασ. αλλα τοιχοιμι τησ σησ επι ,
ubi τυχοιμι correxit librarius ipse, λλα τοι et μ et ησ ε delevit nescio quis, atramento usus recentiori.

4¹ προσηγοριαν τησ χαθαροτητοσ. φυγωμεν πιστοι
ζηλουντεσ του τελωνου χαλωσ. την ηλεημενην·

4² σιν επαγουσιν· ινα θειον ελεον χαι φωσ. επισπασωμεθα: ∼
Πολλων, πταισματων ἑσμω βαρουμενοσ. υπερβολη

5² Μη προσαξωμεθα φαρισαϊχωσ αδελφοι. ο γαρ υφων
εαυτον ταπεινωθησεται· ταπεινωθωμεν· εναν

6¹ τησ δε αδιχιασ. ογχοσ χεχενωται. χτησαμενοσ
συνεμπορον την ταπεινωσιν: —

6² ν [?] ζ [utrumque lineam habet impositam] Δροσοβόλον μεν την χαμινον: —
Διχαιωσεωσ τοισ ογχοισ επερομενοσ. βροχοισ χενο

7¹ μετανοουντα· χαι ποιησον με ωσ ενα των μισθιω[ν]

7² την περιουσιαν· μη ουν αποχηρυξησ με.
ο τον σον ευδοχησασ. υιον μονογενη· σταυρον υπερ .

accentus non posui, qui non raro evanuerunt: Δροσοβόλον theologis qui vocantur gratificari volebam, qui Danielis 3_{50} adeant, ut intellegant de quibus rebus agatur. αδοχησασ descripseram.

videntur quae cum lectoribus communicavi tantum non omnia ad cantiones sacras nescio quas referenda esse: nam $5^1{}_4$ $5^1{}_{19}$ de ἤχοις sermo mihi esse videtur, $5^1{}_4$ κανόνας, $7^1{}_2$ ηχ β et $7^1{}_9$ ἦχος β legitur. adcuratius de his quaerere neque volebam (usus enim codicis graeci a librario syriaco deleti perexiguus esse mihi videbatur), neque vero etiam poteram, Romae usu librorum typis exscriptorum carens.

Signantur كراريس codicis hoc modo:

8² ܐ κδ	73² ܛ ις	137² ܦ η
9¹ ܐ κγ	74¹ ܛ ιε	138¹ ܦ ζ [η scripserat]
18² ܒ κγ	81² ܝ ιε	145² ܨ ζ
19¹ ܒ κβ	82¹ ܝ ιδ	146¹ ܨ ς
26² ܓ κβ	89² ܟ ιδ	153² ܩ ς
27¹ ܓ κα	90¹ ܟ ιγ	154¹ ܩ ε
34² ܕ κα	97² ܠ ιγ	161² ܪ ε
35¹ ܕ κ	98¹ ܠ ιβ	162¹ ܪ δ
41² [ܗ non adest] κ	105² ܡ ιβ	169² ܫ δ
42¹ ܗ ιθ	106¹ ܡ ια [λ deleta]	170¹ ܫ γ [deletum signum nescio quod]
49² ܘ ιθ	113² ܣ ια	177² ܬ γ
50¹ ܘ ιη	114¹ ܣ ι	178¹ ܬ β
57² ܙ ιη	121² ܢ ι	185² [illegible] β
58¹ ܙ ιζ	122¹ ܢ θ [ι scripserat]	186¹ [illegible] α
65² ܚ ιζ	129² ܥ θ	195² [illegible] α
66¹ ܚ ις	130¹ ܥ η	

tenendum, in pagina 81ᵛ (lectiones ieiunii diebus destinatae incipiunt 82ʳ) evangeliarii pauca verba scripta esse, et circulum sisti, in quo medio caput Christi cruci infixum pictum habetur. tenendum folia 190 191 minoris quam cetera formae quaternioni superaddita esse non ab ipso (ut videatur) librario. tenendum adiectum inveniri folium 196, in quo evangeliarium ad finem perdu-

citur. in 196[2] quae scripta erant, nunc deletâ sunt. in folio 196 verso Arabica non nulla habentur a me non tentata.

paginae codicis [= A], si 190 191 exceperis, bipertitae. versus singularum paginarum quotquot equidem numeravi, viceni sunt aut viceni singuli. litterae quum nescio quo tempore evanescere coepissent, manu satis rudi longe plurimis in paginis instauratae sunt.

foliis membraneis praefixa ab utroque voluminis fine lintea sunt, quorum uni IAssemanus et ISAssemanus (ita scribunt qui se arabice السمعانى = הַשִּׁמְעֹנִי vocari scirent) inscripserunt quid de codice sibi videretur.

marginatores discerni possunt plures, ita tamen, ut cui singula tribuenda sint, equidem certe non semper dicere audeam. tutissimum credo, M vocare quae in margine addita habentur, additis, ubi paulo minus incertus de aetate librarii iudicabam, numeris, ut signis M[1] M[2] M[3] M[4] significetur quae exhibeo, mihi vetera, non nova, recentia, recentissima videri. ceterum omitto quae arabicis aut syriacis elementis usus recentissimus homo margini inlevit, quae cum orbe docto communicabit cui otium ad hoc negotii suscipiendum suppetiverit. littera C correctorem indicabo, de cuius aetate referam si certa me referre posse credidero.

Tituli in paginâ codicis primâ obvii post versus tres arabice litteris arabicis scriptos nunc evanidos (nisi quod in primo بسم الاب والابن et in tertio exeunte الله videre mihi videor) haec supersunt:

كتب الاناجيل التى تقرا فى جميع ايام السنه الاربعه ܐܘܢܓܠܝܐ: ܠܐܠܗܐ ܐܒܐ ܫܘܒܚܐ: ܒܒܢܝ ܐܢܫܐ ܒ

1[2] ܒܒܢܝܗܘܢ: ܘܠܡܚܝܠܐ ܒ ܡܕܒܪܢܘܬܗܘܢ: ܘܠܡܨܥܝ | ܒ ܐܦܘܬܗܘܢ ܘܠܒܝܫܐ ܒ ܡܢܐܫܘܢ: ܐܝܟ ܐܩܝܡܘ

ܒ ܥܠܡܝܢ ܥܠ ܐܝܟܢܐ ܕܒܗ: ܫܘܒܚܐ ܠܡܠܟܐ ܕܠܐ ܐܢܐ ܕܝܠܗ ܕܥܠܡܝܢ

ubi ܘܠܡܚܝܠܐ [= والضعفاء] puncta priora non habet qualia edidi, sed .˙ sub ܐ priori positum, plane ut ܐܩܝܡܘ sequens [= اقاضوا?] puncta altera non ea habet quae edidi, sed : subter ܐ alteram adscriptum, et mox ܥܠܡܝܢ = عظيم habet .˙ sub ܥ positum. de ܘܠܡܨܥܝ certus non sum: elementum quartum ܨ ad dexterum latus inversum esse videatur, cui punctum supernum primâ manu impositum. ܬ vocis ܕܠܐܠܗܐ punctum lateri dextero infixum habere ne credas. ܕܝܠܗ legi, non (quod a Miniscalchio editum est) ܕܝܠ. erat cum ܠܥܠܡܝܢ legerem.

In folii 1[1] angelo dextero manu europaeâ saeculi sexti decimi scriptum est *Lectiones quatuor Euangeliorum per dies annuos*, in folii 1[2] angulo sinistro habentur Arabica quaedam quorum ultima vocabula prorsus evanuerunt, priora vix leguntur, in quae enucleanda bonas horas insumere nolebam.

Iam ad enumerandas evangelii lectiones me converto, in editione meâ ad numeros lectionum mox in margine meo ponendos provocaturus. quum librarium grammaticae arabicae ne prima quidem elementa novisse constet, ab emendandis titulis plerumque abstinendum esse ratus sum.

1[3] ܡܢܐ ܐܘܢܓܠܝܘܢ ܕܝܘܚܢܢ ܕܡܬܩܪܐ ܒܝܘܡܐ ܕܦܨܚܐ ܕܗܘ ܥܐܕܐ ܕܩܝܡܬܐ ܕܡܫܝܚܐ ܒ ܚܕ ܒ

اقول انا انبا اليا القس تلميذ انبا موسى انى كتبت هذا الانجيل وكتب الاعياد والقيامة وستة ميناون
خدمة الكنيسة المقدسة وساير الكتب الذى جاءت معى من انطاكية العرب وقف القديس مار اليا المعروف
بدير كوكب الذى جرت عمارته على يدى تكون هذا الانجيل والكتب لمن سكن الدير يقرا فيها ويرحم على
انا الخاطى ✿ ولا يكون لاحد سلطان لا يبيع ولا يشترى : وكل من خالف يكون محروم مفروز من الله ✿ رحم
الله من قرء ومن كتب امين امين ✿

Indicem pericoparum in evangeliario collectarum hunc habe:

In honorem viri evangeliario edendo de litteris sacris bene mereri cupientis transscribo quae de morte mariti ad me anno 1876 ineunte mitti curavit vidua:

> Il conte Luigi Miniscalchi, la Contessa Eleonora Guerrieri, il Conte Marco, il Conte Attilio, la Contessa Alfonsa, la Marchesa Marianna Malaspina-Miniscalchi Erizzo, e il Marchese Alberto Malaspina, con acerbo dolore partecipano ai parenti e amici la perdita del loro figlio, marito, padre e suocero
>
> Conte Francesco Miniscalchi Erizzo
>
> senatore del regno
>
> che colpito da subito malore spirava nel bacio di Dio in Padova la sera del 27 Dicembre 1875 alle ore 11.
>
> Un Requiem.
>
> La Salma sarà trasportata dalla Stazione di Porta Vescovo al Cimitero alle ore 12 meridiane di Venerdì prossimo 31 Dicembre.

מת בנשיקה, Frankels Monatsschrift 12 214. Litteras ad virum summum, quem Miniscalchii nomen antiquo Langobardorum sanguine ortum testatur, Kalendis Iuliis anni 1875 dederam, de consilio meo repetendi evangeliarii in alium ordinem redacti eum certiorem facturus.

Paulo plura de Matthaeo Šahwâno dare possem, nisi sumptus nimii futuri essent. nam anno 1880 Ignatius Guidi de Maronita illo optime de se studiisque suis merito exposuit in libro cui titulus est *gli studi in Italia*, anni tertii volumine primo. quem adeant velim qui Matthaeum Šahwânum evangeliario hierosolymitano describendo Miniscalchium invisse grati meminerint.

29 post [Syriac] supra versum + [Syriac] C

29 *fin* · : fecit C, puncto sinistro signi ·: deleto

30 supra [Syriac] signum [Syriac] addidit C

30 [Syriac] invitus edo, quum de [Syriac] certus non sim. nunc a C [Syriac] est, punctis supra [Syriac] [[Syriac] haec recens] et infra apicem dexterum [Syriac] prioris additis

30 fortasse [Syriac] A

30 [Syriac] aut [Syriac] A, [Syriac] C

30 *fin* : recens et diductum

31 [Syriac] C, punctum subter [Syriac] servans (nisi ipse scripsit)

31 [Syriac] incertus edo. nunc [Syriac], in quo [Syriac] ante columnam a C recentissimo addita, [Syriac] ad [Syriac] veterem manu recenti adiecta est

31 [Syriac] nunc deletum: [Syriac] fecit instaurator. ad finem commatis + [Syriac] C satis recens

1 ad [Syriac] vocis [Syriac] prioris infra versum .., ad [Syriac] eiusdem vocis punctum supernum + C recens

2 [Syriac] supra versum post [Syriac] + C

2 [Syriac] nunc legitur: [Syriac] A?

3 [Syriac] in liturâ manu recentissimâ scriptum. [Syriac] manus alia recentissima scripsit: [Syriac] serius a manu recentissimâ tertiâ additum videtur, quod supra [Syriac] ·· et signum [Syriac] exhibet

3 [Syriac] fuisse ab A videatur [sed [Syriac] etiam A habet]

3 supra [Syriac] priori vocis [Syriac] rasura non parva: [Syriac] altera radendo deleta, in cuius locum supra versum punctum + C

4 puncta priora vocis [Syriac] recentissima

4 [Syriac] in unum iuncta codex

4 [Syriac] > A, + C in intercolumnio

4 [Syriac] C

5 puncta pluralem indicantia vocis [Syriac] recentia et in liturâ posita

5 C radendo [Syriac] effecit: rasura supra versum protrahitur: superior pars litterae [Syriac] a C scripta. ita fit ut de [Syriac] non certus sim

6 [Syriac] supra [Syriac] ab A punctum unum tantum habuisse videtur

6 supra [Syriac] vocis [Syriac] + [Syriac] C

6 punctorum superiorum vocis [Syriac] non instauratum nisi sinistrum

7 [Syriac] vocis [Syriac] radendo delevit C, punctum subter versum addens. idem litterae [Syriac] punctum imposuit

7 [Syriac] C recentissimus

7 fortasse [Syriac] C

7 [Syriac] supra versum + C

7 [Syriac] C

7 supra [Syriac] vocis [Syriac] punctum, supra [Syriac] eiusdem lineam + C

7 de punctis vocis [Syriac] infra versum positis certus non sum. possunt ad [Syriac] vocis [Syriac] trahi

8 [Syriac] :· in versu ineunte scriptum

8 [Syriac] vocis [Syriac] in liturâ scripta: puncta recentissima

8 . [Syriac] C

8 supra [Syriac] vocis [Syriac] + [Syriac] C

8 *fin* ·: delevit, punctum + C

9 supra [Syriac] vocis [Syriac] addidit [Syriac] C

9 [Syriac] codex

9 [Syriac] correxit, in locum .. punctum unum suffecit C

9 [Syriac] codex

9 supra [Syriac] vocis [Syriac] + [Syriac] et supra [Syriac] vocis [Syriac] + lineam et ·· C. [Syriac] vocis [Syriac] vix cernitur, nec quod signum sequatur discerno

25 signum post ܕܡܬܟܬܒܝܢ positum adcurate typis exprimere nequeo

Hoc loco exhibeo

et quae in codicis § 176 folio 153[3] leguntur [supra 396 ₂ ante ܘܬܘܒ]

ܘܟܠܗܘܢ ܡܢܗܘܢ ܐܬܒܥܬܘ ܢܬܥ ܡܢܗܘܢ ܘܡܬܢܐܝܢ ܠܟܠܒܐ ܣܦܩܘ ܕܢܟܬܒܘܢ ܢܦܫܗ:

et quae § 150 folio 135[2] ante Iohannis 19 ₃₁ [supra 397 ₁₄] inserta sunt

135[3] ܡܢ ܕܝܢ ܡܟܣܐ ܕܗܘܐ ܬܡܢ. ܘܐܬܡܠܝܘ ܦܩܘܕ ܕܢܗܘܐ ܡܢ ܡܪܢܗ | ܡܢ ܠܥܠܡ ܠܡ ܥܕܡܐ:

ubi supra ܘܟ vocis ܡܪܢܗ lineam, supra ܝ vocis ܚܡ signum ܏ addidit, punctum ultimum delevit C. locus prior ex Iohannis 11 ₅₃ [supra 379/380], alter e Marci 15 ₃₈ sumptus videatur, sed a codicibus nostris uterque ita recedit, ut eum in evangeliorum continuitatem recipere vererer.

Supra 397 ₁₉ vix meâ culpâ 135[3] notatum in margine est quo loco 135[4] esse debet.

Der Titel des vorliegenden Werkes lehrt, daß es ein Bruchstück ist. Nach dem ursprünglichen Plane, wie ihn Lagarde zu Anfang 1888 in den Mittheilungen **3** 40/41 dargelegt hatte, sollte das ganze Werk zwei Bände umfassen. Später ist jener Plan erweitert — z. B. die Neuherausgabe des Evangeliarium hierosolymitanum ist hinzugekommen —, und es sind demgemäß drei Bände von zusammen etwa 2000 Seiten, nötigenfalls sogar vier Bände, in Aussicht genommen worden. Der Druck begann, nachdem die für ihn nötigen Typen beschafft waren (Mittheilungen **3** 99—110 261—277), im Juli 1889; am 6. Mai 1890 waren die Reste der syrisch-hexaplarischen Uebersetzung des alten Testaments (vgl. Mittheilungen **4** 205—208) zu Ende gedruckt, und es kam nun das Evangeliarium hierosolymitanum an die Reihe, zu dessen Collationierung Lagarde dreimal, Oktober 1890, März und April 1891, und Oktober 1891, in Rom war (vgl. Mittheilungen **4** 328—341). Bei Lagardes Tod (22. December 1891) war das Evangeliarium vollendet, und es war eben mit dem Druck des Antonius von Tagrit begonnen, welcher, da Lagarde beschlossen hatte, die »Analecta mit den nöthigen Nachträgen« (Mittheilungen **3** 40) unter dem Titel »Catalecta« herauszugeben, den Anfang der nach dem Alphabet geordneten Reihe nichtbiblischer Stücke bilden sollte. Nach Lagardes testamentarischer Anordnung ist der Druck des Antonius sistiert, und es wird nur »quae ad philologiam sacram pertinent« ausgegeben.

Lagarde hatte mit Seite 33 zu drucken begonnen. Die Seiten 1—32 hatte er für Titel und Vorwort zu den »Veteris testamenti graeci in sermonem syriacum versi fragmenta octo« reserviert. Von dem Vorworte lag das von Seite 4 bis zum ersten Drittel von Seite 19 Gedruckte vor. Lagarde selbst hatte noch den Druck bis zum Schlusse von Seite 12 corrigiert; die Revision dieser Seiten und die Correctur der übrigen fiel mir zu; dabei habe ich, da ich die Randnoten zu Seite 13—16 nicht in lateinischer Fassung vorfand, sie in deutscher Sprache nach Lagardes Manuscript hinzugefügt. Den Schluß des Vorworts (Seite 19—32^{i}) habe ich nach dem von Lagarde in seinem Testamente angegebenen Plane ausgearbeitet, seiner Vorschrift entsprechend in deutscher Sprache. Leider aber ist es mir nicht möglich gewesen, diesen Schluß auf den noch freien 13²/₃ Seiten unterzubringen. Denn obgleich ich die Mahnung Lagardes, den angegebenen Plan so knapp als möglich auszuführen, da der Raum spärlich zugemessen sei, nach Kräften beherzigt hatte, stellte sich doch, als ich das fertige Manuscript in der Druckerei ablieferte, heraus, daß die Liste allein 16 Seiten einnehmen werde. Da ich nun daran verzweifelte, die Liste ohne Schaden für ihre Deutlichkeit so weit zusammenpressen zu können, daß sie den gegebenen Raum nicht überschritte, und da ich sie auch nicht mit Petitschrift drucken mochte, so habe ich mich, obgleich ungern, dazu entschlossen, acht als 32^{b}—32^{i} gezählte Seiten einzuschieben, und ich hoffe, von den Benutzern dieses Buches für dies keineswegs schöne und von mir nur aus Not gewählte Verfahren Verzeihung zu erlangen.

Ueber die von Lagarde gewählte Interpunction lese man Mittheilungen **3** 281.

Zum Schlusse sei noch erwähnt, daß ich, als ich im Sommer 1889 Lagarde die Revision des dritten und vierten Bogens lesen half (übrigens die beiden einzigen Bogen, bei denen ich dies gethan habe), ihm die am Rande von Exod 3_{16} 12_{12} stehenden, von Ceriani fälschlich als Zahlzeichen aufgefaßten ܫ und die ihnen entsprechenden ܦ Exod 4_{1} 12_{17} als ܫܒܘܩ und ܦܬܚ gedeutet habe; die Handschrift wurde als Lectionar benutzt, der Vorleser wurde durch ܫ angewiesen, das Folgende zu überschlagen, durch ܦ, hier die Vorlesung (wieder) zu beginnen. Lagarde war von der Richtigkeit dieser Deutung überzeugt und wollte sie, da er sie nicht mehr in die Anmerkungen aufnehmen konnte, später im Vorworte aufführen: darum erwähne ich sie hier.

Göttingen, den 28. Juli 1892. Alfred Rahlfs.

Göttingen, Druck der Dieterichschen Universitäts-Buchdruckerei (W Fr Kästner).
